## Research & Discussion II (A)

---

ウォルシュ ナイアル マーク 先生

Hello all 3rd-year students. This is a research and discussion class taught by a native speaker to third-year students at APU. Students have to research a different topic and then discuss it during class. Some common topics include Freedom of Speech, Social Media, Gender Equality and Politics. This class is conducted in English, and the language proficiency level of the students is high. Please come and observe some of the class for yourself. I look forward to seeing you then.
